

M-CLEA Bioresource Co. Ltd.

No. 1-10-M

Microbiological Testing Report (Mouse)
 【 M-CLEA Bioresource • October (Monthly Report) 】

Laboratory Institution: National Laboratory Animal Center, Mahidol University
 Testing Date : 2016/10/04

Breeding Institute/Units Received Strain		MCBC/A1 C57BL/6NJcl					
Items							
cultivation	Dermatophytes	0/2					
	<i>Citrobacter rodentium</i>	0/2					
	<i>Pasteurella pneumotropica</i>	0/2					
	<i>Corynebacterium kutscheri</i>	0/2					
	<i>Pseudomonas aeruginosa</i>	0/2					
	<i>Salmonella</i> spp.	0/2					
	<i>Staphylococcus aureus</i> ■						
	<i>Mycoplasma pulmonis</i>	0/2					
	<i>Streptococcus pneumoniae</i>	0/2					
serology	<i>Clostridium piliforme</i>	0/2					
	<i>Mycoplasma pulmonis</i>	0/2					
	Mouse hepatitis virus	0/2					
	Sendai virus	0/2					
PCR	<i>Ectromelia virus</i>	0/2					
microscopy	<i>Giardia muris</i>	0/2					
	<i>Spirochete muris</i>	0/2					
	<i>Syphacia</i> spp.	0/2					
	<i>Aspicularis tetraptera</i>	0/2					
	Ectoparasite	0/2					

【Remarks】

- ※For periodic testing, it will use random sampling animal from breeding room unit
- This test is used for immune-deficient strain only

Reporting Date (year/month/day) : 2016/10/18
